Secure - Safe - Reliable - Convenient

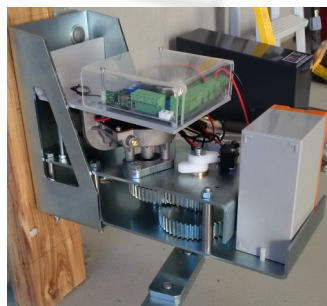

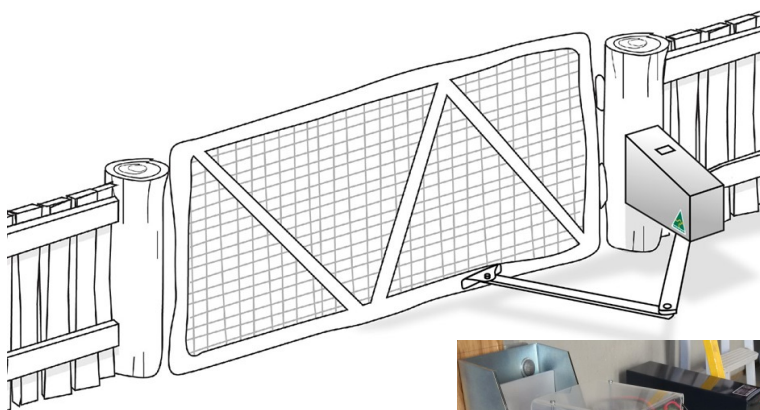

A simple mechanism can improve security, safety and bring so much convenience. Automatic gates really do make life easier on the farm. You will never need to leave the comfort of your car to open the gate. Ultimate convenience with improved security and safety.

Whether you require Solar or AC Low Voltage powered operation, your AG 5 Farm Gate Motor kit brings the following benefits:

- Simple straight-forward installation and set-up.
- Exclusive G Force mechanical latch kit secures the gate against animals or people trying to open the gate.
- Standard safety inclusions like adjustable obstruction sensitivity with auto reverse.
- U Bolts and brackets for easy attachment to the farm gate's tubular frame.
- An adjustable auto-close function can be enabled.
- Manual release.
- No ground stops required making our farm gate opener ideal for gravel driveways.

AG 5 Farm Gate Motor kit includes:-

- 1 x 12V gate motor with electronics and swing arm
- 2 x handset transmitters
- Battery
- 12V AC Transformer or 20 Watt solar panel with bracket
- Mechanical Latch kit
- Visitor push button.
- 'Stop - Automatic Gate' sign
